

Melanoma Bull's-eye on a killer

Melanoma diagnoses are increasing at epidemic rates. Researcher Alan Diehl will share what his lab is doing in the arena of targeted therapies to increase the odds of survival for these patients.

J. Alan Diehl, Ph.D.

MUSC professor in the
Department of Biochemistry and
Molecular Biology

Associate Director for Basic Science,
Hollings Cancer Center

Science for the rest of us

MUSC's Science Café is a series of presentations offering entertaining talks on scientific subjects in a fun, non-technical way in a pleasant social environment. To learn more, contact Tara Abbott at 843-792-2926.
